

Juliette Regimbal

Education

- 2011–2015 **High School Diploma**, *Watchung Hills Regional High School*, Warren NJ.
High school completed with courses focusing on basic engineering, math, and science. Independent research done in final year. Graduated as member of the National Honor Society with a GPA of 3.86.
- 2015–Present **Bachelor of Engineering**, *McGill University*, Montréal QC.
Bachelor of Computer Engineering. J.W. McConnel Scholarship.

Experience

Vocational

- Summer **Intern**, *Thorlabs, Inc.*, Newton NJ.
- 2012, 2013, 2014 Conducted experiments to verify the specifications of imaging and optics equipment under supervision of trained engineers and scientists. Projects include finding the transmission curves of bandpass filters, the source and behavior of a noise pattern in a CCD camera for life science use, and the emission spectra of a fluoride fiber optic cable to investigate the potential to use it in a near-IR optical pump.
- May–June **Stagiaire**, *Matrox Electronic Systems Ltd.*, Dorval QC.
- 2016 Worked in Video Products Group with software engineers.
Worked in a team towards the release of a new version of their SDK, and on new features for later versions.
- May **Casual Research Assistant**, *Schulich School of Music*, Montréal QC.
- 2018–Present Software developer for the *Single Interface for Music Score Searching and Analysis* project at the Distributed Digital Music Archives and Libraries Lab. Specifically working on corrections in optical music recognition by contributing to Verovio and developing the online square-notation music editor Neon.
- November **Candidate to the Engineering Profession**, *Ordre des ingénieurs du Québec*.
- 2019–Present Candidate to the Engineering Profession in the process of graduating. File number 5090071.

Miscellaneous

- 2011–2015 **Programmer**, *FIRST Robotics Team 41*, Warren NJ.
Participated as member and lead programmer. Provided experience with hand tools, electrical equipment, and C++ programming. Administration experience by helping organize a growing team and teaching younger students how to program in C++.
- 2017 **French Courses**, *CSDM - Centre Saint-Louis*, Montréal QC.
Levls 5 and 6 of the *Échelle québécoise des niveaux de compétence en français des personnes immigrantes adultes*.

Languages

English Native
French Proficient

Computer skills

Programming Languages (by proficiency) C/C++, JavaScript/Typescript, Python, Java, Rust ,VHDL, Haskell, x86_64 and ARM assembly
Familiar With UNIX-like systems (especially Linux), Scrum-style Agile, FPGAs, Microcontrollers, and Git

Projects

2015 **Blade Flapping in Quadrotors**, *Independent Research*, Warren NJ.
Conducted individual research into blade flapping angles in small quadrotors and their effect on stability. Research involved designing programs to monitor the rotational velocity of the rotor, modelling expected flapping angles using existing works, and numerous experiments in a wind tunnel. The project specifically focused on how varied accelerations might cause deviation from typical models. Worked with Dr. Sophia Gershman as an advisor.

Presentations and Publications

2019 Regimbal, Juliette, Zoé McLennan, Gabriel Vigliensoni, Andrew Tran and Ichiro Fujinaga. 2019. "Neon2: A Verovio-based square-notation editor." Presented at the Music Encoding Conference, University of Vienna, Vienna, Austria, May 31.
